Subject: Microfsoft settlement

I am very much opposed to the government attempting to destroy a wonderful company like Microsoft. It sees as though every time a company manages to grow large on it's own, our government feels it has a duty to destroy it. Take for instance the "Bell System Telephone Company." It was one of the most admired company on the face of the earth, and then our government got in the act and ever since it has become a disaster. There is a saying to which I subscribe. "I love my country, it's the government that I am afraid of." Nothing could be more truthful.
I say "LEAVE MICROSOFT ALONE!"
